Include Me Out

dEUS

Where have i seen this before?
When will i feel it again?
Somebody opened a door
I'm afraid to walk in
Imagination will kill
If imagination stands still
I read it in open book
read it in open bookOh man, i read it in books of laughter
Oh man, i read it in books of painWhat are you talking to me
Cause i'm not really there
Like a spirit that's free
I'm as light as the airOh man, i'm as light as the air and floating
Oh man, i'm as light as the air and floatingTake me on
Where the fire winds blow
Of where a fallen leaf stays
for days
on your shoulderCause all i need
Is to find my own
And that summering drone
Illicit and goldenOh lord where have i seen this before
Oh lord when will i feel it againRead it in every move
Read it in every game
Read it in what you do
Read it in everythingOh man, as light as the air and floating
Oh man, as light as the air and floating
Take me on
Where the fire winds blow
Cause when time stands still
I wait until
It's over
And all i need
Is to find my own
And the summering drone
Illicit and golden
