

Night Terrors

Steel Horse

In time, I'll get this out of
Get this out of, out of my mind
Where am I? I can't see
I fear for my life, fear of this fright
They haunt me and they taunt me
Try to relax, let it happen
My hopes turn to crystal matter
Watch them shimmer as they shatter
Night terrors in my mind, thoughts I cannot hide
Dreams that play on my cold fears
Night terrors in my head, am I really dead?
I can't tell, it feels so real
Remember what you once said
Every passing fragile moment
Is another chance to turn it around
I want to try to work it out
Night terrors in my mind, thoughts I cannot hide
Dreams that play on my cold fears
Night terrors in my head, am I really dead?
I can't tell, it feels so real to me
Get out of my mind, get out of my head
I wish you were dead, I can't take it
Get out of my mind, get out of my life
I'll curse you tonight, I just can't take it anymore
Night terrors in my mind, thoughts I cannot hide
Dreams that play on my cold fears
Night terrors in my head, am I really dead?
I can't tell, it feels so real
Night terrors in my mind, thoughts I cannot hide
Dreams that play on my cold fears
Night terrors in my head, am I really dead?
I can't tell, it feels so real to me
