

Bring Her Down (to Cripple town)

Rob Zombie

Yeah, I went out walking to Cripple town
My crutch hit the floor with a bony sound
Yeah, now all the girls they go beep, beep, beep
How can I love you when you're so cheap, yeah?
Turn it on, turn it on, turn it on
Don't be long, don't be long, don't be long
Come on, bring her down, bring her down, bring her down
Come on, see the world that's around you, baby
Come on, bring her down, bring her down, bring her down
Come on, see the world that's around you, baby
Now everybody gather in the square
To twist their fingers in my hair, yeah
They hang around like a serpentine
And try to speak like a Frankenstein, yeah
Turn it on, turn it on, turn it on
Don't be long, don't be long, don't be long
Come on, bring her down, bring her down, bring her down
Come on, see the world that's around you, baby
Come on, bring her down, bring her down, bring her down
Come on, see the world that's around you, baby
Yeah, the children come all dressed in black
One foot forward the other back
Yeah, they splash around in a muddy hole
While everybody crying they got no soul, yeah
Turn it on, turn it on, turn it on
Don't be long, don't be long, don't be long
Come on, bring her down, bring her down, bring her down
Come on, see the world that's around you, baby
Come on, bring her down, bring her down, bring her down
Come on, see the world that's around you, baby
