Ends Don't Mend (Stripped)

The Virginmarys

Ive been down this road 5 times before,
One more lock I fix to my door,
Make sure I dont get hurt no more.
Love her so much, I try too hard,
Sit back, relax, Im just falling apart
Falling apart, falling back to the start
Shes breaking my heart,Lying to a heart thats sighing,
Watch the final threads start falling apart.
Crying from a pain Im hiding,
Climbing, finding out, Im right back at the start.
Falling apartLet me tell you how, let me tell you how
I love you so much, I love you girl
