

# Ends Don't Mend (Stripped)

## The Virginmarys

I've been down this road 5 times before,  
One more lock I fix to my door,  
Make sure I don't get hurt no more.  
Love her so much, I try too hard,  
Sit back, relax, I'm just falling apart  
Falling apart, falling back to the start  
She's breaking my heart, Lying to a heart that's sighing,  
Watch the final threads start falling apart.  
Crying from a pain I'm hiding,  
Climbing, finding out, I'm right back at the start.  
Falling apart Let me tell you how, let me tell you how  
I love you so much, I love you girl
