

One Blood

Deitrick Haddon

Yep, all over the world
One blood, oh, come on love, listen I'm sitting here thinking to myself
People all over the world are in need of help
From the shores of India back to the hood
People everywhere are misunderstood But I
(I still believe)
That love is the answer
(I believe)
That we still can come together (Holding on)
Keep holding on to what I know is true
I'm pouring my heart, my heart out to you You and I
(You and I)
One
(Are one and the same) Red Blood
(Red blood)
Flowing through one
(Flowing through one vein) Hear you crying
(I hear you crying for change)
I feel your pain One blood, one blood
One blood, one blood Maybe someone will listen
To what I have to say
And we're killing each other
And it's not okay Somebody tell me why
We're tearing each other down
And the blood from the innocent
Is crying from the ground (I still believe)
That love is the answer
(I believe)
That we still can come together
(Holding on)
To what I know is true, oh
I'm singing this song
Pouring my heart out to you You and I
(You and I)
Are one the same
(Are one and the same) Red blood
(Red blood)
Flowing through one
(Flowing through one vein) I hear you crying

(I hear you crying)
For a change
(For change)I can feel
(I feel)
Your pain
(your pain)You and I
(You and I)
Are one
(Are one and the same)Red blood
(Red blood)
Flowing through one vein
(Flowing through one vein)I hear you crying
(I hear you crying)
For a change
(For a change)I can feel
(I feel)
Your pain
(Your pain)I feel your pain
(You're not by yourself I can)
Feel your pain
(You're my brother I can)
Feel your pain
(You're my sister I can)
Feel your painOne blood, one blood
One blood, one bloodFeel your pain
Feel your pain
Feel your pain
Feel your painOne blood, one blood
One blood, one blood
