# We Were Us

## [Keith Urban](Keith Urban)

Rearview crosses
Railroad ties
Oh, Hail Marys
Friday nights
Heartbeat baby
Low-beam lights
God, I miss when you were mineChorus:
Back when that song was a song
I could sing along without thinkin bout you every time it came on
Every beat, every line, every word, every time
When a road was a road
I could roll on through without wishin that empty seat was you
Money was gas, dreams were dust
Love was fast and we were usShotgun sunset
A cool mint kiss
Backseat promise
Breaking it
Floorboard feeling
County lines
God, I miss when you were mineChorus:
Back when that song was a song
I could sing along without thinkin bout you every time it came on
Every beat, every line, every word, every time
When a road was a road
I could roll on through without wishin that empty seat was you
Money was gas, dreams were dust
Love was fast and we were usIn a sleepy town, just jumping in
Far too young to know that summers end
We were us, we can't go back
It's what it is, but God I missChorus:
Back when that song was a song
I could sing along without thinkin bout you every time it came on
Every beat, every line, every word, every time
When a road was a road
I could roll on through without wishin that empty seat was you
Money was gas, dreams were dust
Love was fast and we were usEvery beat, every line, every word, every single time
I just close my eyes and you're ridin shotgun
You and me, baby, on the run

I miss ya baby, I miss ya baby,
Still miss you baby
I can feel your heartbeat, baby
