

My Man

Ayo

The one* came some time
It's just like a cable over you
The past won't stop hurting
Sorry for the things I put you through
You're good, and you're bad
You're the best thing I ever had
I am good, and I am bad
Probably the worst thing you ever had

[Refrain:]

Wanna love you baby, hold you baby
Be your woman

I want you to trust baby, I need you baby, you are my man
Gonna serve you baby, support me babe, wanna be your best friend
I want you to trust baby, I mean it baby, you are my man

...

You changed, changed for good
Nobody beat me is understood
I'm yours and you're mine
My body's your throne you are my kingdom
I love, how we fight
But as long as we're together; everything's gonna be alright

[Refrain:]

Wanna love you baby, hold you baby
Wanna be your woman

I want you to trust baby, I please you baby, you are my man
Gonna serve you baby, support you baby, wanna be your best friend
I want you to kiss me baby, I've missed you baby, you are my man.
