

# Water Water

## Empress Of

Water, water is for washing  
Vino Tinto is for drinking  
I hate when you get too high sometimes  
And forget about existing  
All the simple silhouettes in here  
Make me nervous in my insides  
Take my outsides for a ride  
Any shape that you can twist them into tonight  
Water, water is a privilege  
Just like kids who go to college  
There's a ring around your mouth now  
Where you used to whisper knowledge  
I miss all the things about you  
When you're dreaming of an outlet  
Take me with you when you trip next  
It's so beautiful to see you  
When no one's watching  
You're just a heart to hold  
You're easy to impress  
I want to care much more  
But i'm feeling less awake  
You're just a heart to break  
Easy to manipulate  
I want to care much more  
But I'm feeling less and less
