

# Shattered Dreams

## Kevin Michael Kappler's Altered Sensorium

Shattered dreams of days gone by  
Makes me want to sit right down and cry  
All the plans I had and what it turned to  
Just shattered dreams  
Yesterday was long ago  
When I first met you, you were my dream  
All in vain and it only brought me pain  
Yes, in shattered dreams  
Your goodbye, shattered it all  
For early this morning, blues brought me a call  
Now, all I have is gone and all that's left  
Is my shattered dreams  
Shattered dreams  
Shattered dreams, baby  
Shattered dreams  
Shattered dreams  
Shattered dreams  
Shattered dreams  
My shattered dreams  
My shattered dreams
