

# Black Swan (B-side Version)

Tori Amos

Ride on, ride on  
Friends of the black swan  
Ride on, ride on  
Do you know where she's gone  
Gumdrops and Saturdays  
Did Eric call by the way?  
He knew, he knew  
And he knew where the pillow goes  
Ride on, ride on  
Friends of the black swan  
Ride on, ride on  
You know where she's gone  
Buttercups and fishing flies  
The biggest, thickest ever sky  
I know they know something  
I know, ah  
Ride on, ride on  
Friends of the black swan  
Ride on, ride on  
You know where she's gone  
Little green men do okay  
It's the fairy's revenge they say  
Gumdrops and Saturdays  
Did Eric call by the way?  
Ride on, ride on  
Friends of the black swan  
Ride on, ride on  
You know where she's gone  
Ride on, ride on, ride on
