Flames

Catamenia

Do you dare to follow me?
Into the place where you can seeWhat you`ve missed, what it could be
Can you taste it? Can you feel?
So many secrets can be revealed
Chaos of truth lives in hereThere`s written the name of unknown
But can you handle what is shown?I`ve been so many nights
So many years wasted away
Still I`m searching, maybe I`ll find
What`s been written in these stones of life
