

Scarlet Inside

Clannad

Slowly, I look around
An angry sight for every sound
We stood with troubles all around
She's trampled on the ground Feel the sadness inside
I'm scarlet inside I realize, far too late
As her life dissipates
No truth, no reasons why
Just the fear, and the hatred Feel the sadness inside
I'm scarlet inside This life is such a lie
Now I don't even try
Never (I can't think why)
I never saw eye to eye Feel the sadness inside
I'm scarlet inside
