

# To Me

## Matthew West

Well it breaks my heart  
Every time I see the world break yours in two  
You know those lies ain't true  
When you let 'em get to you,  
Being you is hard to be, I see.  
These days sticks and stones  
Sound like paradise  
Compared to those harsh words  
They're rather cut you down than hold you  
But they don't know you like I know you  
If they did I know they'd see,  
Yes they would see...  
To me you are  
Heaven's finest invention by far  
So much brighter than the brightest star  
And what I'd give to make you see  
Who you are to me  
All your so called friends  
Said they'd be there to the bitter end  
But I won't be just like the others  
I'm gonna show you my true colors  
You can't ever make me leave

No, no, I won't ever leave  
To me you are  
Heaven's finest invention by far,  
Even brighter than the brightest star  
And what i'd give to make you see  
Who you are to me  
When you laugh it's my favorite song  
And all the gray is gone  
Every single time I see you smile,  
I just haven't seen it in awhile  
So go on and dream  
Bigger dreams than this town's ever seen before  
There are just two kinds of people:  
Ones who say you're just not able  
And the ones who change the world  
And you're gonna change the world

To me you are  
Heaven's finest invention by far  
Even brighter than the brightest star  
And what I'd give to make you see  
Who you are to me  
...to me.
