

You Make Me Wish

Shayne Ward

I noticed you, noticed you walking through the door, yeah
The sexiest finest thing dancing on the floor, yeah
You move your body like I've never seen before, yeah
You make me wish that I didn't have a girlfriend
It's crazy, so crazy, the way your body's shaking
I almost feel guilty picturing you get naked
'Cause baby, baby, baby, you know how to work it
You make me wish that I didn't have a girlfriend
I love my girl, I love my girl but come on
You're hotter than an oven turned on
The things I wanna do with you are so wrong
Wish I could stay but I should go home
Dance with me
Do you wanna dance with me girl, just for a little while?
Dance with me
Don't you wanna dance with me, girl, girl, girl?
I noticed you, noticed you walking through the door, yeah
The sexiest finest thing dancing on the floor, yeah
You move your body like I've never seen before, yeah
You make me wish that I didn't have a girlfriend
It's crazy, so crazy, the way your body's shaking
I almost feel guilty picturing you get naked
'Cause baby, baby, baby, you know how to work it
You make me wish that I didn't have a girlfriend
My baby's good to me but you're just too fine
I've been obsessing 'bout you all night
You're not a two or three, you're one plus a nine
You're not just burning up, you're on fire
Dance with me
Do you wanna dance with me girl, just for a little while?
Dance with me
Don't you wanna dance with me, girl, girl?
I noticed you, noticed you walking through the door, yeah
The sexiest finest thing dancing on the floor, yeah
You move your body like I've never seen before, yeah
You make me wish that I didn't have a girlfriend
It's crazy, so crazy, the way your body's shaking
I almost feel guilty picturing you get naked
'Cause baby, baby, baby, you know how to work it

You make me wish that I didn't have a girlfriend
Wish, wish
You make me wish that I didn't have a girlfriend
Wish, wish
You make me, you make me wish even though I love my girlfriend
Wish, wish
Hey, hey
You make me, you make me, yeah
You make me, you make me
I noticed you, noticed you walking through the door, yeah
The sexiest finest thing dancing on the floor, yeah
You move your body like I've never seen before, yeah
You make me wish that I didn't have a girlfriend
It's crazy, so crazy, the way your body's shaking
I almost feel guilty picturing you get naked
'Cause baby, baby, baby, you know how to work it
You make me wish that I didn't have a girlfriend
