Everyone Is Waiting

Cowboy Mouth

Once upon a long ago she saw his golden face
She'd cover his eyes and cover his mouth
And teach that man his place
She sees him, she knows that he'll wallow in disgrace
Everyone is WaitingOnce upon a memory he saw his second chance
He'd show her how to kill his soul
Through crucified romance
He sees her, he knows that he'll writhe inside her pants
Everyone is WaitingSlam your door and burn my bed
And forget every word or deed
I never did or said
I want to be alone
I want to be aloneSolo
