

Droned

Starflyer 59

When you've taken all
I know
When you've faked it all
I know it And I'm going to
Your arms
And while he's away
You're here to stay You're the best thing easily
You're the best thing easily
You're the best thing easily
You're the best thing easily When you've taken all
I know
When you've faked it all
I know it And I'm going to
Your arms
And while he's away
You're here to stay You're the best thing easily
You're the best thing easily
You're the best thing easily
You're the best thing easily
