Head In The Girl

Big Wreck

Got my head in the girl
Got my head in the girl
Got my head in the girl
So when I look back upon it now
Remember how I used to feel so proud
'Cause there never was a power shift or struggle
And we would lay naked on my couch
And my head was up in the girl
Everything would be because it never could have been
Everything I wanted you to mean to me
So I'll take the advice of all my friends
When T says "Man just let her be"
But my head was out of this world
You laid me down
So you could walk all over
Or maybe just mercy fuck
Watch me frown
As I never get to hear
All our favorite words
My head's in the girl
Got my head in the girl

I like to brag and I love to play
But it never was two ways anyway
I've got no more will to hang around
My bruises go from black to brown
But my head's still down in the ground
You laid me down
So you could walk all over
Or maybe just mercy fuck
And watch me frown
As I never get to hear
All our favorite words
My head's in the girl
I got my head in the girl
Got my head in the girl
Got my head in the girl
I've got my head in the girl
Got my head in the girl

Got my head in the girl
I've got my head in the girl
