

# Annihilation

## Rebaellion

We shall rise  
Deep in our souls a rebellious will  
Destructive restless attack  
In the name of the highest revenge  
Annihilation  
We bring chaos  
Flesh perishing towards the new age  
The end of the rotten peace  
Dethroned their saviour  
I witness the end of their kingdom  
Embryonic world's disease  
Oppressive gods swallowing humanity's bequest  
They plot in vain  
God's creation shall not rest  
We reign supreme  
New era has come for the ones who'll lead  
This empire to its downfall  
Dethroning their saviour  
I witness the end of their kingdom  
Wolves' conspiracy  
In the tower of fear  
We still refuse this loyalty  
World's fallacy  
Two thousand years will follow  
Under the sign of the beast's cruelty  
My victory  
The final annihilation of this so-called world  
Eternally  
Suffering  
I still hear thousands of screams  
The lamb's death symphony
