She Does

The Mavericks

She spends all my money
And wears all my favorite clothes
She looks kind of funny
Wearing that ring in her noseWell she always has to drive
Everywhere that we go
She's got a four-lane highway
Running through the middle of my soulI think she knows the way to my heart
(She does)
I think she knows the way to my heart
(She does)She never hears a thing I say
But it really doesn't matter
'Cause I love her anywayShe says she loves me
Whenever someone mentions my name
And though I've never heard her
I know it's true just the sameWell her friends are all crazy
Man they're always around
And maybe it's just as wellI think she knows the way to my heart
(She does)
I think she knows the way to my heart
(She does)She never hears a thing I say
But it really doesn't matter
'Cause I love her anywayI think she knows the way to my heart
(She does)
I think she knows the way to my heart
(She does)She never hears a thing I say
But it really doesn't matter
'Cause I love her anywayI think she knows the way to my heart
(She does)
I think she knows the way to my heart
(She does)She never hears a thing I say
But it really doesn't matter
'Cause I love her anyway
