

# And Some Money Too

Serena Ryder

Take a bite from my rotten apple  
he said as he left his castle  
with miniscule apendage  
and he was such an assholeOnly over loved his mother  
never would he love another  
never really loved his father  
because he wasSaving the world  
and some money too  
what else in the world  
would you have a man to do  
he's breaking his back  
he's tried and true  
he saving the world and some money tooStuck Stuck  
in this contradiction  
walking a tpye rope  
thats theres no fixing  
making sure everythings a daydream
