Missile

DOROTHY

Your sin gonna waste you, lover
No way it'll be alright
You're fucking with the wrong wolf, baby
Darkness gonna break your light

No prayer gonna part my thunder
No word's gonna change my mind
You're fucking with a sickness, baby
Your heart is a plague on mine

I am a missile,
I am the fire,
Love is destruction
But this war is mine
this war is mine
I am a missile
I am the fire
Love is destruction
But this war is mine
this war is mine
I am the missile.

Vengeance isn't coping, baby
I serve it on a bed of pain
Still think you're a hard one, maybe
We'll see when the missile rains, yeah
Rains, yeah

I am a missile
I am the fire
Love is destruction
But this war is mine
this war is mine
I am a missile
I am the fire
Love is destruction
But this war is mine
this war is mine
I am the missile
I am the missile

I am the missile

I am a missile
I am the fire
Love is destruction
But this war is mine
I am a missile
I am the fire
Love is destruction
But this war is mine
This war is mine
I am a missile
I am the fire
Love is destruction
But this war is mine
This war is mine
I am the missile
