See a Little Light

Belinda

Stay alone in my room Every moment passing too soon Watch the candles burn into the nightFall into a dream Wake up and every things the same A second older but alone just like a childIf you just give me a sign To live and not to dieThen I could see a little light I could find some piece of mind I dont know where you are Maybe near or maybe far I just need a little lightHear a clock ticking On a life that could have meaning If I could find the love light in your eyesSee a million people Everyones so lonely But we dont have to be alone tonightThen I could see a little light I could find some piece of mind I dont know where you are Maybe near or maybe far I just need a little lightIf I could see a little light If I could find some piece of mind If you just give me a signI could see a little light I don't know where you are Maybe near or maybe far I could see a little light If I could see a little light I could see a littleStay alone in my room Every moment passing too soon Watch the candles burn into the night
