

It's Lonesome

Billy Walker

I've walked a million miles across this floor and a million times I opened this door

But all there ever is the blues hmm it's lonesome without you

I know we just broke up two days ago but it seems a million years or so

To get you back there's nothing I want do hmm it's lonesome without you

If I could count high enough I'd let you know

How many times I wished that you'd walk through that door

And love me as only you can do hmm it's lonesome without you

If I could count high enough...

Oh love me as only you can do hmm it's lonesome without you
