

# Whatever

## Dead Obies

I'm wanting you too much, don't take advantage of  
My tender heart and everything about me  
In giving you my trust, I'm giving you my love  
So do take care, please be gentle with my heart  
'Cause everything I do is 'bout you, baby  
Baby, I don't wanna be apart  
I've been loving you from the start  
Here's my heart, here's my heart  
Everything I do is all about you, baby  
Whatever you do, whatever you think  
I look in your eyes  
You don't know how my heart aches  
Whatever you say, whatever could mean  
You're breakin' my heart  
I want it all the time, I want it every night  
I can't stop thinkin', can't stop thinkin' about you  
I'm burning with desire, my heart and soul on fire  
So do take care, please be careful with my heart  
Anything you do, I crave it, baby, baby, baby  
I can't get you outta my mind  
Loving you I can't deny, you're in my heart  
Deep inside, everything I do is all about you, baby

Whatever you do, whatever you think  
I look in your eyes  
You don't know how my heart aches  
Whatever you say, whatever could mean  
You're breakin' my heart  
I maybe a fool for you, baby, well, I can't help myself  
Maybe I'm too in love, what else can I do but go crazy  
For your love boy, I'd give anything  
Whatever you do, whatever you think  
I look in your eyes  
You don't know how my heart aches  
Whatever you say, whatever could mean  
Could be breakin' my heart  
Whatever you do, whatever you think  
I look in your eyes  
You don't know how my heart aches

Whatever you say, whatever could mean  
Could be breakin' my heart

Whatever you do, whatever you think  
I look in your eyes  
You don't know how my heart aches  
Whatever you say, whatever could mean
