Man in the Moon

Yes

I am the man in the moon
And I hope to shine upon you very soon
Waiting in the night
To bathe you all in moonlightI am the man
I am the man in the moonSilently revolving
Wandering through the heavens above
On my ownRound and round and round I go
When I stop, no one will knowI am a creature of the night
And I hope to come and shed a little light
Although the universe, our teacher
I remain the central featureI am the man
I am the man in the moonRound and round and round I go
When I stop no one will knowSilently revolving
Wandering through the heavens above
On my ownI am the man in the moonRound and round
And I hope to shine upon you very soonRound and round
Waiting in the night
To bathe you all in moonlightI am the man
I am the man in the moonRound and round and round I go
When I stop no one will know
Round and round and round I go
When I stop no one will knowRound and round and round I go
When I stop no one will know
Round and round and round I go
When I stop no one will knowIt's that old devil moon
It's that old devil moon
