

Almost Like Love

Yes

Who was it organizing the right
To follow my leader?
Seems we look and stand around waiting
For a sign from GodSpeaking for myself
The Christian need, the Muslim need
The Buddhist need
To testify the need for brotherly loveI know there's so many hundred things
To talk about, making us laugh
Just like a Shakespeare revolutionPlease organize our spiritual evolution
So that you'll feel it and we'll feel it
Appreciate itIt's almost like love
It's almost like love
It's almost like love
It's almost like loveSaint or sinner
Makes no difference in who you believe
In a world of superstition
Caught in a total nuclear greedPioneers of the twenty first century
Looking on and looking fast
To try and fix and try and help
This very needI know there's so many ways
That we can work it out
Making us laugh and cry
Whether we live or diePlease organize the simple evolution
So there's got to be, so we can see
To be freeIt's almost like love
It's almost like love
It's almost like love
It's almost like loveSo promised in a hundred letters
Should be getting to you any time now
So promised a surprise for you
For getting so far from nowIt's love
It's almost like loveThe way the first one out discovers
It's almost like
How many times can you recover?
It's almostIt's almost, it's almost
It's almost, it's almost
It's almost, it's almost
It's almost, it's almostIt's almost, it's almost
It's almost, it's almost

It's almost, it's almost
It's almost, almost, almost like love
