# Forget About It

## Suzy Bogguss

Forget about it, I'm admittin' I was wrong
So I'll just take my old guitar and walk out the door
Forget about it, I'll be gone and you'll have memories
You'll find hard to ignore'Cause after all I'll see you sometimes, maybe
When I can't recall how you drove me crazy
Forget about it when forever's over
I won't remember how much I love you anymoreForget about it, put me out of your head
Now that you're free and easy out there on the town
Forget about it when you're lying in your bed
Just wishing I was there to lay my body down'Cause after all I'll see you sometimes, baby
When you will recall how I drove you crazy
Forget about those starlit nights laying by the fireside holding tight
I can't remember when it felt so right so just forget about itForget about it, if you see me on the street
Don't wave don't wink, don't try to tease me with your smile
Forget about it, if we chance to meet somewhere
Don't think it's 'cause I'm tryin' to reconcile'Cause after all I'll see you sometimes, baby
When I can't recall how you drove me crazy
Forget about those starlit nights laying by the fireside holding tight
I can't remember when it felt so right so just forget about itForget about those starlit nights laying by the fireside holding tight
I can't remember when it felt so right so just forget about it
Forget about it
