Take Aim

The Ratells

Nightmares, oh nightmares come on now
Getting my days all wrong now
Risen from prison an outlaw
Spending our time in the lion's jaw
In the end you sink or swim, I'm eager, I'm eager
Loving, more loving, come on now
Socially biting your tongue now
Run down, oh run down old houses
Feeding the cats to the mouses
Oh take aim now, oh take aim now
Can you see me in the way now?
Oh take aim now, oh take aim now
Gotta get us out of here
Drop them and give them star prizes
Lock them away in high rises
Held off and called on by truncheons
Rattling keys to the dungeons
Oh take aim now, oh take aim now

Can you see me in the way now?
Oh take aim now, oh take aim now
Gotta get us out of here
Don't take me over
I bid you all farewell, I've got to leave
Tears on my shovel
Switch me off today
Oh take aim now, oh take aim now
Can you see me in the way now?
Oh take aim now, oh take aim now
Gotta get us out of here
Oh take aim now, oh take aim now
Can you see me in the way now?
Oh take aim now, oh take aim now
Gotta get us out of here
Don't take me over
I bid you all farewell, I've got to leave
