Never Say Never

Triumph

Keeping the faith is a constant fight
We live and we breath it
And when you feel the cause is right
You gotta believe itWhich is stronger, your hope or your fear?
Meet the challenge of your lifeNever say never
Don't let me down
Try to understandNever say never
I will always be around
Never say never againThey say if you're not aware of history
You're doomed to repeat it
You gotta face up to your enemy
And try to defeat itSomehow you can find the strength
Somewhere that's deep down insideNever say never
Don't let me down
Try to understandNever say never
I will always be around
Never say never
Never say never againI still believe in the power of truth
That the fire of freedom can burn in the heart of a song
Dare to dream in all that you do
Forever can never be wrongNever say never
Don't let me down
Try to understandNever say never
I will always be around
Never say never, never say never
Never say never againNever say never again
Never say never, never say never
Never say never
Never say never againNever say never again
Never say never, never say never
Never say never againNever say never again
