Come Alive (Culture Shock Remix)

Netsky

Too good to be true our worlds collide
Now I understand why
It's been so long on the other side
Feel my heart was gonna dieSo look straight into my eyes
Tell me the truth and not lies
Put your hands up and testify
And my heart will come aliveAnd my heart will come aliveAnd my heart will come aliveAnd my heart will come aliveAnd my heart will come aliveToo good to be true our worlds collide
Now I understand why
It's been so long on the other side
Feel my heart was gonna dieSo look straight into my eyes
Tell me the truth and not lies
Put your hands up and testify
And my heart will come aliveAnd my heart will come aliveAnd my heart will come alive
