

Stumble

Silage

What's on your T.V.?
Whatever's okay with me
I didn't think you'd see
I'd change it but i'm too lazy
I let you stumble
My example, I watched it crumble
It's all right in a while
It's all done with a smile
In public, we're in denial
Until we have our trial
I let you stumble
My example, I watched it crumble
