

# The Night We Called It a Day

**Bob Dylan**

There was a moon out in space  
But a cloud drifted over it's face  
You kissed me and went on your way  
The night we called it a dayI heard the song of the spheres  
    Like a minor lament in my ears  
    I hadn't the heart left to pray  
The night we called it a daySoft through the dark  
    The hoot of an owl in the sky  
    Sad though his song  
No bluer was he than IThe moon went down stars were gone  
    But the sun didn't rise with the dawn  
    There wasn't a thing left to say  
The night we called it a daySoft through the dark  
    The hoot of an owl in the sky  
    Sad though his song  
No bluer was he than IThe moon went down stars were gone  
    But the sun didn't rise with the dawn  
    There wasn't a thing left to say  
    The night we called it a day
