

Once In a While

Dishwalla

When you close your eyes
Do you like what you see inside your mind?
And do you like to dream about the stars above
Once in a while? Dont go to the other side
For nothing at all
And better make it worth your while
Im gonna break down that wall
Gonna take the fall'Cause when you close your eyes
Do you like what you see inside your mind?
And do you like to dream about the stars above
Once in a while, once in a while? Dont go to the other side
As you might mess up that hair
Just wait you might change your mind
You think that people might care
About your hair anyways When you close your eyes
Do you like what you see inside your mind?
And do you like to dream about the stars above
Once in a while, once in a while? Dont go to the other side
Just get down on your knees
And show me what you are made of
Im begging you please
Just please go away When you close your eyes
Do you like what you see inside your mind?
And do you like to dream about the stars above
Once in a while? When you close your eyes
Do you like what you see inside your mind?
And do you like to dream about the stars above
Once in a while? Dont go to the other side
For once in a while, once in a while
Dont go to the other side
For once in a while, once in a while
