neowa dasi han beon deo chumeul
dan han beon deo han beon deo
uriga dasi gateun ggumeul
I wanna dance with u dasi han beon deo
jejarireul irheobeorin modeun geotdeureul wihae chumeul

English

-

We fought, yelled, and cried everyday
but those were the good times, when I think of it
Our time together is like a finished song,
itâ€™s still replaying in my heart

When I was your man
You were my everything
If I could be with you again
I donâ€™t care if I have to lose everything

I wanna dance with u one more time
Holding your hand and looking into your eyes

Iâ€™ll hold you on the endless music and
never let you go, so you canâ€™t go away.

One more time, one more time
to dance with you one more time
Just once, one more time
to be able to dream the same dream as you
I wanna dance with u one more time
for everything thatâ€™s lost its place.

Like a bunch of dots in a white space,
I donâ€™t want to, but I keep staring into it
I try to run away and hide, but like raging rain
I canâ€™t avoid this loneliness.
When I feel better,
I realize Iâ€™m okay
and the most painful spot
starts to suffocate me

When I was your man
When everything was happy
I never once imagined
you could leave my arms.

I wanna dance with u one more time
Holding your hand and looking into your eyes
Iâ€™ll hold you on the endless music and
never let you go, so you canâ€™t go away

One more time, one more time
to dance with you one more time
Just once, one more time
to be able to dream the same dream as you
I wanna dance with u one more time
for everything thatâ€™s lost its place

Between never having loved you and
having lost you like I have now,
the sadder thing is this life
youâ€™ve left me in

I wanna dance with u one more time
Holding your hand and looking into your eyes
Iâ€™ll hold you on the endless music and
never let you go, so you canâ€™t go away.

One more time, one more time
to dance with you one more time
Just once, one more time
to be able to dream the same dream as you
I wanna dance with u one more time
for everything that's lost its place.
