

When the Blues Catch Up With You

Buddaheads

You're moving way too fast
One day you'll pay for what you do
You're moving way too fast
One day you'll pay for what you do
I might not be around
When the blues catch up with you

You're headed for a fall
Unless you find some middle ground
You're headed for a fall
Unless you find some middle ground
If you want me to stay babe
You'd better slow your motor down

Do you have to get so low
Just to get another thrill
Do you have to get so low
Just to get another thrill
I ain't the fool you think I am babe
I've almost had my fill
