

Killing Floor

The Electric Flag

I should of quit you, a long time ago
I should of quit you, babe, long time ago
I should of quit you, and went on to Mexico
If I had of followed, my first mind
If I had of followed, my first mind
I'd of been gone, since my second time
AI should of went on, when my friend come from Mexico at me
I should of went on, when my friend come from Mexico at me
But no I was foolin' with ya, baby, I let ya put me on the killin' floor
Lord knows, I should of been gone
Lord knows, I should of been gone
And I wouldn't have been here, down on the killin' floor
Yeah
