

The Simple Things

Michael Carreon

It's the simple things you do
I just can't get enough of you
It's that perfume that you wear and
The way you do your hair
That I love so much
And it's the simple things you say
And how in bed we play
It's the way you kiss my cheek when you think
That I'm asleep
I love it so much
I love you words I never say friends make fun
but I tell you every day anyway lately you
been getting me home safely
Wake up love the coffee that you make
Ask me how my night was I like us its so easy and
we don't ever fight cause you don't blow up
my phone when your home alone
Assuming that I'm doing what a guy does
Trust with just the right amount of lust
Even loved by my family that a must and fun
everything we do me and you
My song comes on and you dance n sing too
with the windows down like Gs we
don't care who's around or who sees
And everyone is jealous of my ride because
you sitting in the passenger side
It's the simple things you do
I just can't get enough of you
It's that perfume that you wear and
The way you do your hair
That I love so much
And it's the simple things you say
And how in bed we play
It's the way you kiss my cheek when you think
That I'm asleep
I love it so much Everyday scrubbing it loving it cruising freeways
in our PJs cause that's the fun of it unless
You wear that pretty black dress O yes
Catch me in a suit so I can look as good as you but I don't

O well with a that smile that you wear so well
And the way that you cry in movies pass
you the ball and you pass it back to meBeer s with the guys aint no thing
it's your eyes and the simple things
That make this work like it should
when you rock my shirt o you look so good
So take my hand stay as long as you can with the man
That tells all the jokes only you understand and I promise
to be honest if you promise to
accomplish love all we need is love
