The Town

Andre Jay

Young man,coming from the city
Said it before n I'll say it again,
Tryna make a milli,
I ain't with the bullshit you should know that,
My ex girl ain't nothing but a throwback,
Yeah and I be rocking the set,
All around the world but how can I ever forget,
Where I was born,that's 530 location,
Tell my mama soon she'll hear me on the stations,
And I'm here for a long time,
Been the motherfucking man since back in 09,
1834 Hardy dr. Where I stayed,
From Sactown, to the Woo, to the Bay, ay
All my L's can only shape my victory,
A young Latino boy trying to make history,
NorCal hometown, I stay reppen,
I'm coming home make sure you spread the message

(X's2)
Everything that glitters ain't gold,
My city is who lights up my soul,
That's how it goes down,
You know I stay reppen man I do it for the town

You know I heard it through the grapevine,
That people from the city feeling my rhymes,
Well if that's the case this goes out or you,
Yeah I said it man I'm dedicating this this out to you
One for my people, two for the shows,
Three for the illegals, all around the globe,
Privileged majority just don't know what it's like,
I met different toned minorities without their papers in my life,
Head up because the sky is the limit,
Racism is our era,man we gotta end it,
I stand for equality don't you go and forget it,
We gotta set an example for all the young children,
Yeah
I'm just speaking the truth,
All these motherfucking deaths on the daily news,

Can really get to you but you gotta yo head up,
Don't be afraid because that these
Dark days will get better,

(X's2)
Everything that glitters ain't gold,
My city is who lights up my soul,
That's how it goes down,
You know I stay reppen man I do it for the town,

All around
All around
All around
Yeah
Eastside to westside oh yeah,
All around
All around
All around
Yeah
Up north and back to the South yeah
Yeah I heard they want to shoot me down,
But I'm too high up right now,
From my city to the rest of the map,
We need to start making changes ASAP

(X's2)
Everything that glitters ain't gold,
My city is who lights up my soul,
That's how it goes down,
You know I stay reppen man I do it for the town
