Anti-Gravity (feat. Oriel Poole)

Lotus

Verse 1
I used to shut down - With judgment and affliction, affliction. Before you came round - My world was black and white, and white. I spent my days - Going through emotion, emotion. Kept my eyes shut - Closed so tight.

Pre-Chorus
You pulled me up â€“ Like an arc. Rocked the pieces â€“ In my heart. Iâ€™m amazed â€“ That you came. Liftinâ€™
You gave me spark - To my dark. Put the bite back - In my bark. Took the weight - Off my back. Off my - off my - off my - OHH

Chorus
You're my anti-gravity - Hold me so I don't float away, float away. You're my sugar and my flame - Every bite of you is so game, it's insane.

(Instrumental part)

Verse 2
I used to hide out - Running from the season, the season. Fighting my mind out â€“ I was locked inside, inside. I tried to break it â€“ weighted by eruption, eruption. Forgot all about â€“ Loveâ€™s first site.

Pre-Chorus
You pulled me up â€“ Like an arc. Rocked the pieces â€“ In my heart. Iâ€™m amazed â€“ That you came. Liftinâ€™
You gave me spark - To my dark. Put the bite back - In my bark. Took the weight - Off my back. Off my - off my - off my - OHH

Chorus
You're my anti-gravity - Hold me so I don't float away, float away. You're my sugar and my flame - Every bite of you is so game, it's insane.
(Instrumental part)
