Don't You Run (feat. Raja Kumari)

[Vicetone](#)

Can't think about
What's wrong or right
The second I
I feel aliveYou do it to me
You bring me back up
Feel your energy
I'm high on your touch
Just do it for me
Make me remember
Make me rememberDon't you run
From what you want
Give your heart
What it lovesDon't you run
D-don't you run
Give your heart
What it lovesDon't you run
D-don't you run
Give your heart
What it lovesMelt into me
I'll make
You mine
You set me off
You light
My fireYou do it to me
You bring me back up
Feel your energy
I'm high on your touch
Just do it for me
Make me remember
Make me rememberDon't you run
From what you want
Give your heart
What it lovesDon't you run
From what you want
Give your heart
What it loves
