

Aqua's Own Pocketwatch Odyssey

Echo Orbiter

Swimming through a sea of rings
Touching what seems to be nothing
But what is in fact everything

Take me away now

Have you got the time my friend?
I seem to have lost my way
Answer with me a lazy smile
Like you do everyday?..Everyday is the same

A cup full of fun that will take you to a timeless blur
And separate us from this world

Take me away now

Everything that lies before me
Comes alive behind my eyes
Passengers on a submarine
Gliding through the starry skies?..Listen to the silent space

A cup full of fun that will take us to a timeless blur
And stretch our legs so we're above the world

Take me away now
