

Treat Me Like A Woman Today

Natalia

Please come a little closer to me
But not so close, I can't breathe
'Cause your stamping on my little tippy toes
And I, I got a funny feeling inside
Like something's gonna happen tonight
But it's not what you might think I have in mind
So back it up, baby, keep your hands up by your side
'Cause mummy gets swing, that's then you realize
And we wanna have a good time
It's not the point that you love but I still gotta hide
It's a beautiful day and that's the reason I wanna play
Feel the wind in my hair, see the love everywhere
Tomorrow come what may just treat me like a woman today
Treat me like a woman
You, you think you know me better than most
Before you make a move, here's how it goes
I'm not taking any of the usual lines

So step up your game, introduce an element of surprise
'Cause mummy gets swing, that's then you realize
And we wanna have a good time
It's not the point that you love but I still gotta hide
It's a beautiful day and that's the reason I wanna play
Feel the wind in my hair and see the love everywhere
Tomorrow come what may just treat me like a woman today
It's not the point that you love but I still gotta hide
It's a beautiful day and that's the reason I wanna play
Feel the wind in my hair and see the love everywhere
Tomorrow come what may just treat me like a woman
It's not the point that you love but I still gotta hide
It's a beautiful day and that's the reason I wanna play
Feel the wind in my hair and see the love everywhere
Tomorrow come what may just treat me like a woman today
