Dropping the Ball

MU330

I'm too happy I hardly have to try watch me fall down,
Tripped so easily some things come naturally
I've got a little man inside me whispers she's had
Enough this little thing inside me tells me that she's above breakdown
I've gotta see you you've got to prove it wrong,
watching a video I hardly have to try
It could be you and me if I just close my eyes
Now I'll just close my eyes,
Dropping the ball is the one thing I do the best, dropping the ball
