

# Dropping the Ball

[MU330](#)

I'm too happy I hardly have to try watch me fall down,  
Tripped so easily some things come naturally  
I've got a little man inside me whispers she's had  
Enough this little thing inside me tells me that she's above breakdown  
I've gotta see you you've got to prove it wrong,  
watching a video I hardly have to try  
It could be you and me if I just close my eyes  
Now I'll just close my eyes,  
Dropping the ball is the one thing I do the best, dropping the ball
