

# Birthday Girl

Raleigh Ritchie

[Verse 1]

Not out of the woods yet  
I haven't brought the goods yet  
Are we here to say goodbye?  
I wish I could support you  
I wish I could afford to  
Give me one more chance to shine  
I know that I don't live up to this  
I'll stay in the wilderness  
Staring at a lonely sky  
It's what I deserve  
What I should be reduced to  
And I won't even ask  
Why you brought me in your car boot[Chorus]  
And I am curious as to  
Why you're so furious  
And I know your news is serious[Verse 2]  
We could've gone anywhere  
If you wanna shoot the breeze  
But I remember you said  
You're at one with the trees  
If you're sick of my questions  
I won't say a word  
But one quick suggestion  
Fuck what you heard  
If this is a test, dear  
I wanna pass, flying colours  
And baby, with the best win  
Better than the others[Chorus]  
And I am curious as to  
Why you're so furious  
And I know your news is serious
