Let's Get Crazy

White Lion

We've been workin' hard all week We've been under command We've been trapped in this prison cell Well, I think it's time to get out And now it's Friday 5 o'clock We know it's time to rock So leave all your worries behind And switch into overdrive Let's get crazy, let's get wild Let's get down tonight Let's get crazy, let's get wild We'll tear the town up and burn it down We'll break every rule around We'll show no mercy for the old and weak The boys are back in town And when Monday morning comes We will be back on our job So give it all you got tonight And party 'til morning light Let's get crazy, let's get wild Let's get down tonight Let's get crazy, let's get wild And now it's Friday 5 o'clock We know it's time to rock So leave all your worries behind And switch into overdrive Let's get crazy, let's get wild Let's get down tonight Let's get crazy, let's get wild Let's get crazy, let's get wild Let's get down tonight Let's get crazy, let's get wild Let's get crazy, let's get wild Let's get crazy, let's get wild Goin' crazy, runnin' wild, ooh yeah Goin' crazy, runnin' wild
