Someone to Share It With

I've got dreams and aspirations
And I'm pretty good at conversation
And I've got a heart that I want to give
I just need someone to share it withI love music and don't mind dancing
I'm easy going, a little bit old-fashioned
And I'm a sucker for sunsets, but the trouble is
I need someone to share it withWe're living all alone together
Like we don't even know each other anymore
I miss my friend, I miss my lover
We can rediscover everything that made us fall in love beforeIf you've got time you don't mind spending
I've got a world that feels like it's ending
'Cause baby, you're my life, but I can't live like this
Girl, I need someone to share it withWe're living all alone together
Like we don't even know each other anymore
I miss my friend, I miss my lover
We can rediscover everything that made us fall in love before, babyI miss my friend, I miss my lover
We can rediscover everything that made us fall in love before'Cause I've got dreams and aspirations
And I'm pretty good at conversation
And I've got a heart that I want to give
I just need someone to share it with
