

# Do What You Want

## OK Go

So you were born in an electrical storm  
Took a bite out the sun  
And saw your future in a machine built for two Now your rays make me kind of go crazy  
Shock and awe and amaze me  
Just a ticker tape parade and me But something was wrong  
Till you tap danced on the air, in the night  
Screaming at the top of your lungs, you said "Come on, come on  
Do what you want  
What could go wrong?  
Oh, come on, come on, come on" "Come on  
Do what you want  
Oh, come on, come on  
What could go wrong?  
Do, do, do, do what you want, yeah  
Come on  
[Incomprehensible] "Me, I was raised amid the trickle-down days  
I woke up numb in the haze  
And saw my future in a machine built for two But the light gave me some kind of fright  
How did wrong get so right  
And lead me stumbling through the dark of night? Oh, something was wrong  
But you tap danced on the air, in the night  
Screaming at the top of your lungs, you said "Come on, come on  
Do what you want  
What could go wrong?  
Oh, come on, come on, come on" "Come on  
Do what you want  
Oh, come on, come on  
What could go wrong?  
Do, do, do, do what you want, yeah  
[Incomprehensible] "Do, do, do, do what you want  
Do, do, do, do what you want, yeah Come on  
Come on  
Come on Do, do, do, do what you want, yeah  
Do, do, do, do what you want, yeah  
Do what you want  
Do what you want Do what you want  
Do, do what you want  
Do, do what you want  
Do, do what you want

Do, do, do what you want Come on, come on  
Come on, come on  
Do, do, do, do, do, do, do, do what you want  
Do, do, yeah
