Out There

Blake Babies

You drive around aimlessly
Don't know what you hope to see
You know it's stupid
I see you when I pass you by
I'm afraid to meet your eye
I know I'm stupidYou have a voice, you have a phone
But you're usually alone
You know it's stupid
I have a body and a brain
But I turn them off again and again
I know it's stupidThere's nothin' to do
It's so hard to talk to you
And people never do what they want to
I don't know what and I don't know where
But I know it's out there
It must be out there somewhereI'm gonna leave this place
Gonna leave this life of waste
Gonna put on a new faceWhere was I before?
I'm not there anymore
Went away and tried to come back
Maybe I shouldn't have done thatThere's nothin' to do
It's so hard to talk to you
And people never do what they want to
I don't know what and I don't know where
But I know it's out there
It must be out there somewhereThere's nothin' to do
It's so hard to talk to you
And people never do what they want to
I don't know what and I don't know where
There's nothing out there
It's not out there anywhereI'm gonna leave this town
Gonna' leave it like I found it
Gonna' turn myself around
